D'leteren Group

Scope 1 and 2: D'leteren Group commits to reduce absolute scope 1 and 2 GHG emissions 30% by 2027 from a 2021 base year.

Scope 3 Portfolio Targets

Headline target: D'leteren Group's portfolio targets cover 100% of its total investment and lending activities by GHG emissions as of 2021. As of that year, required activities made up 100% of D'leteren Group's total investment and lending activities by GHG emissions. In terms of invested capital, D'leteren Group's portfolio targets cover 93% of its total investment and lending activities. As of that year, required activities made up 93% of D'leteren Group's total investment and lending by invested capital, while out of scope activities made up 7%.

Scope 3 asset class level targets

| Asset class | Method | Target language |
|----------------|--------------------|---|
| Private equity | Portfolio Coverage | D'leteren Group commits to 100% of its eligible private equity portfolio by financed emissions, setting SBTi validated targets by 2027 from a 2021 base year. |

Summary

D'leteren Group will implement the following strategy and actions to achieve its targets:

In line with its active shareholder strategy, D'leteren Group will support its portfolio businesses to set a science-based target. This implies liaising with the businesses' management and Board of Directors on this topic, putting external experts at their disposal, monitoring progress, encouraging the necessary investments and challenging ongoing business strategies in light of climate change related risks and opportunities. Currently, having a yearly carbon assessment including scope 1, 2 and 3 emissions is set as a requirement for portfolio companies.

D'leteren Group selected these actions because it matches its responsible investment approach. D'leteren Group is also convinced of the crucial importance of the sustainable transition of its businesses as a driver for performance and value creation.
